

## **DR. MICHAEL J WALIGORA:**

Esteemed Cardiologist Delivering Advanced, Personalized Care

---

**“MEDICINE IS A BLEND OF ART AND SCIENCE. WHILE I AM FASCINATED BY THE SCIENCE, WHICH IS CONSTANTLY CHANGING, IT IS THE ART OF THE RELATIONSHIPS I VALUE MORE, AS THEY ARE THE FOUNDATION OF HEALING AND WELLNESS.”**

— MICHAEL J. WALIGORA, MD, FACC

---

For over three decades, Dr. Michael J Waligora has earned a reputation for delivering careful, thoughtful cardiovascular care. As a board-certified Concierge Cardiologist at Dedication Health, he cares for individuals with coronary artery disease, heart failure, hypertension, and complex rhythm issues, drawing on additional experience in preventive cardiology, sports cardiology, and advanced diagnostic testing.

His academic foundation reflects a long-standing commitment to excellence. Dr. Waligora graduated magna cum laude from Santa Clara University before earning his medical degree at Saint Louis University School of Medicine, where he received the Goronwy O. Broun Award in Internal Medicine. From there, he moved into residency and then a cardiology fellowship at Northwestern University and was named chief fellow.

Dr. Waligora continues a family legacy of healthcare and healing spanning three generations. He carries that sense of responsibility forward, prioritizing genuine connection, clear communication, and the kind of attentive care that supports long-term cardiac health.

At Dedication Health, the concierge model lets him practice medicine in a way he knows leads to better outcomes: visits that aren't rushed, direct access when patients need him, and enough time to truly understand their concerns. It opens the door for conversations that matter and for evaluations that are done thoroughly, not hurried.
